COLLECTION
2024 / 2025

(EN) Masterlight, where innovation, creativity, and craftsmanship converge in a wide range of high-quality lighting fixtures and in various style directions. As a production company in the lighting industry, Masterlight is renowned for its quality lighting fixtures, designed and developed in-house, custom-made fixtures, private label products, and interior accessories. A strong and professional team driven by a deep-rooted passion for creating unique and premium lighting solutions.

Established in 1987 by Mr. William Joosten, Masterlight has since evolved into a prominent brand in the lighting industry through dedication, craftsmanship, and expertise. Masterlight distinguishes itself by designing and developing its products entirely in-house and has its own production facility in Panningen, the Netherlands. In addition, Masterlight has an extensive network of carefully selected European manufacturers of high-quality components. This enables Masterlight to respond quickly to new trends and developments.

In addition to manufacturing lighting fixtures, Masterlight specializes in providing lighting advice and making light plans and lighting calculations for both residential and project interiors. Our extensive knowledge and experience, combined with the company's technically solution-oriented approach, make Masterlight a flexible partner for lighting solutions.

(NL) Masterlight, waar innovatie, creativiteit en vakmanschap samenkomen in een breed aanbod van kwalitatieve verlichtingsarmaturen in diversen stijrichtingen. Als productiebedrijf in de verlichtingsbranche staat Masterlight bekend om zijn kwalitatieve verlichtingsarmaturen naar eigen ontwerp, maatwerk verlichtingsarmaturen, private label producten en interieurtoebehoren. Een sterk team, gedreven door een diepgewortelde passie voor het creëren van unieke en hoogwaardige verlichtingsoplossingen.

Het bedrijf is opgericht in 1987 door de heer William Joosten en heeft zich sindsdien door toewijding, vakmanschap en expertise ontwikkeld tot een toonaangevend bedrijf in de verlichtingsindustrie. Masterlight onderscheidt zich door haar producten volledig in eigen beheer te ontwerpen, ontwikkelen en beschikt over een eigen productiefaciliteit in Panningen, Nederland. Daarnaast beschikt Masterlight over een uitgebreid netwerk van zorgvuldig geselecteerde Europese producenten van hoogwaardige componenten. Dit stelt Masterlight in staat om snel te reageren op nieuwe trends en ontwikkelingen.

Naast het produceren van verlichtingsarmaturen is Masterlight ook gespecialiseerd in het geven van lichtadvies en het maken van lichtberekeningen ten behoeve van consumenteninterieurs en projectinterieurs. De uitgebreide kennis en ervaring, in combinatie met de technisch oplossingsgerichte houding van het bedrijf, maakt Masterlight een flexibele partner voor al uw verlichtingsoplossingen.

(DE) Masterlight vereint durch Innovation, Kreativität und Handwerkskunst in seinen Kollektionen hochwertige Beleuchtungskörper in verschiedenen Stilrichtungen. Bekannt für seine hochwertigen Leuchten im eigenen Design, produziert Masterlight auch kundenspezifische Beleuchtungskörper, Handelsmarkenprodukte und Innenaccessoires. Ein starkes Team, angetrieben von einer tief verwurzelten Leidenschaft für die Entwicklung einzigartiger und hochwertiger Beleuchtungslösungen.

Das Unternehmen wurde 1987 von Herrn William Joosten gegründet und hat sich seitdem durch Engagement, handwerkliches Können und technischem Fachwissen zu einem wichtigen Partner in der Beleuchtungsbranche entwickelt. Masterlight zeichnet sich dadurch aus, dass es seine Produkte vollständig im eigenen Haus entwirft, entwickelt und verfügt über eine eigene Produktionsstätte im niederländischen Panningen. Zusätzlich verfügt Masterlight über ein umfangreiches Netzwerk sorgfältig ausgewählter europäischer Hersteller für hochwertige Komponenten. Dadurch kann Masterlight schnell auf neue Trends reagieren.

Neben der Herstellung von Leuchten ist Masterlight auch auf die Lichtplanung und die Erstellung von Lichtberechnungen für Private als auch für gewerbliche Projekte spezialisiert. Das umfassende Wissen und die Erfahrung in Kombination mit der technisch lösungsorientierten Einstellung des Unternehmens machen Masterlight zu einem flexiblen Partner für Ihr Projekte.

LARINO LUMINAIRES

Article no. Info

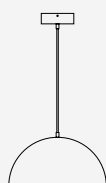

For full article no. take number below according to color and size preference, and add:

- S for PVC cable suspension (only Ø 30 cm & Ø 40 cm shade)
- ST for steel cable suspension
- K for chain cable suspension

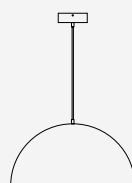

For example, the luminaire on the left is Ø 80cm, gunmetal with goldleaf color. For a chained suspension, the full article no. will be: **2201-30-08-K**

TECHNICAL INFORMATION

The single phase connection (230V, max. 16A) tracks can take 1 KG load every 250mm, with a maximum distance of 1000mm between the fixing points.

For a 4 KG load every 250mm, the maximum fixing distance has to be 500mm. See the figure below (sideview).

540

LIGHTING CONTROL

Standard control solutions | Wireless control

TECHNICAL INFORMATION

CCT - Correlated Color Temperature [K]

It is a measure to describe the color appearance of a light source. It is defined by the comparison of its color within the light spectrum with that of the light which would be emitted by a black body heated to a given temperature and is measured in degrees Kelvin (K). Fixtures with a fixed color temperature of 2700K, 3000K or 4000K are available on request.

Dim to Warm

Synchronized adjustment of color temperature and luminous intensity. When a lighting fixture is dimmed, the luminous intensity will drop and the color temperature will automatically go downwards from 2700K up to 2200K.

Tunable White

Independent adjustment of color temperature and luminous intensity. The color temperature can be controlled between 3000K and 2200K. Enables artificial light to come as close as possible to natural daylight in order to improve people's quality of life and well-being.

STANDARD CONTROL SOLUTIONS

542

Push dim

Lighting fixtures with a push-dim function have a small push button on board of the lighting fixture. A short push will turn the lighting fixture on or off. A longer push will activate the dimming mode. Fixtures with a built-in push dim function cannot be controlled by other dim solutions.

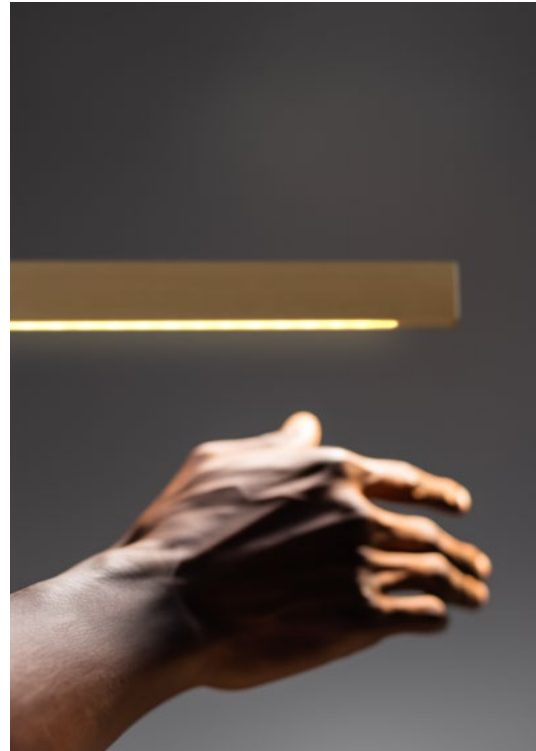

Phase-cut dim

In general, a phase-cut (Triac) dim system can be installed inside of a building installation without the need of extra wiring. A dimmer will be installed in line between the power supply and the lighting fixture. Depending on the applied system, fixtures are Leading-edge and/or Trailing-edge dimmable.

Dali dim

DALI is one of the most common professional lighting control systems. Digital addressable lighting interface dimming systems enable flexible lighting systems. Fixtures can be controlled in a broadcast mode (all fixtures simultaneously), in groups, individually or by pre-installed scenes. Dali wiring to each fixture in combination with a Dali compatible controlling system is required.

Gesture control

Lighting fixtures with a gesture control system have a small sensor built-in into the fixture. Fixtures with a built-in Gesture dim function cannot be controlled by other dim solutions.

WIRELESS CONTROL SOLUTIONS

544

CASAMBI

Zigbee/ Z-wave/ Wifi

Casambi is a wireless lighting control system based on Bluetooth. It provides the ability to wirelessly connect devices for creating customizable lighting networks. These networks can be easily configured and controlled remotely through the Casambi app, freely available for iOS and Android. It is also possible to control the system by a standard or wireless wall switch or remote.

Available on request.

BMW BRANDSTORE
BRUSSEL

PROJECT

BMW BRANDSTORE BRUSSEL

In close collaboration with Van Lier Maatwerk in Interieurs, Masterlight provided multiple custom lighting solutions for the BMW Brand Store in Brussels, Belgium. Masterlight supplied custom fit aluminum profiles, led strips and drivers for application in displays and floor. Striking elements were the creation of large

'5' and '7' symbols in various sizes, with the largest symbol having an impressive height of no less than two floors. This collaboration resulted in a unique lighting solution that enhances the appearance of the BMW Brandstore and attracts the attention of visitors.

MIJN MODEWERELD | VAN DE BELT MODEWERELD

DE WIJK

PROJECT

MIJN MODEWERELD | VAN DE BELT MODEWERELD

In close collaboration with Lumenplan, Masterlight developed a unique custom lighting solution to fit the concept of Mijn Modewereld | Van de Belt Modewereld. Together with the customer and architect, a concept was developed that reflects the identity of Mijn Modewereld. High-quality, matte white

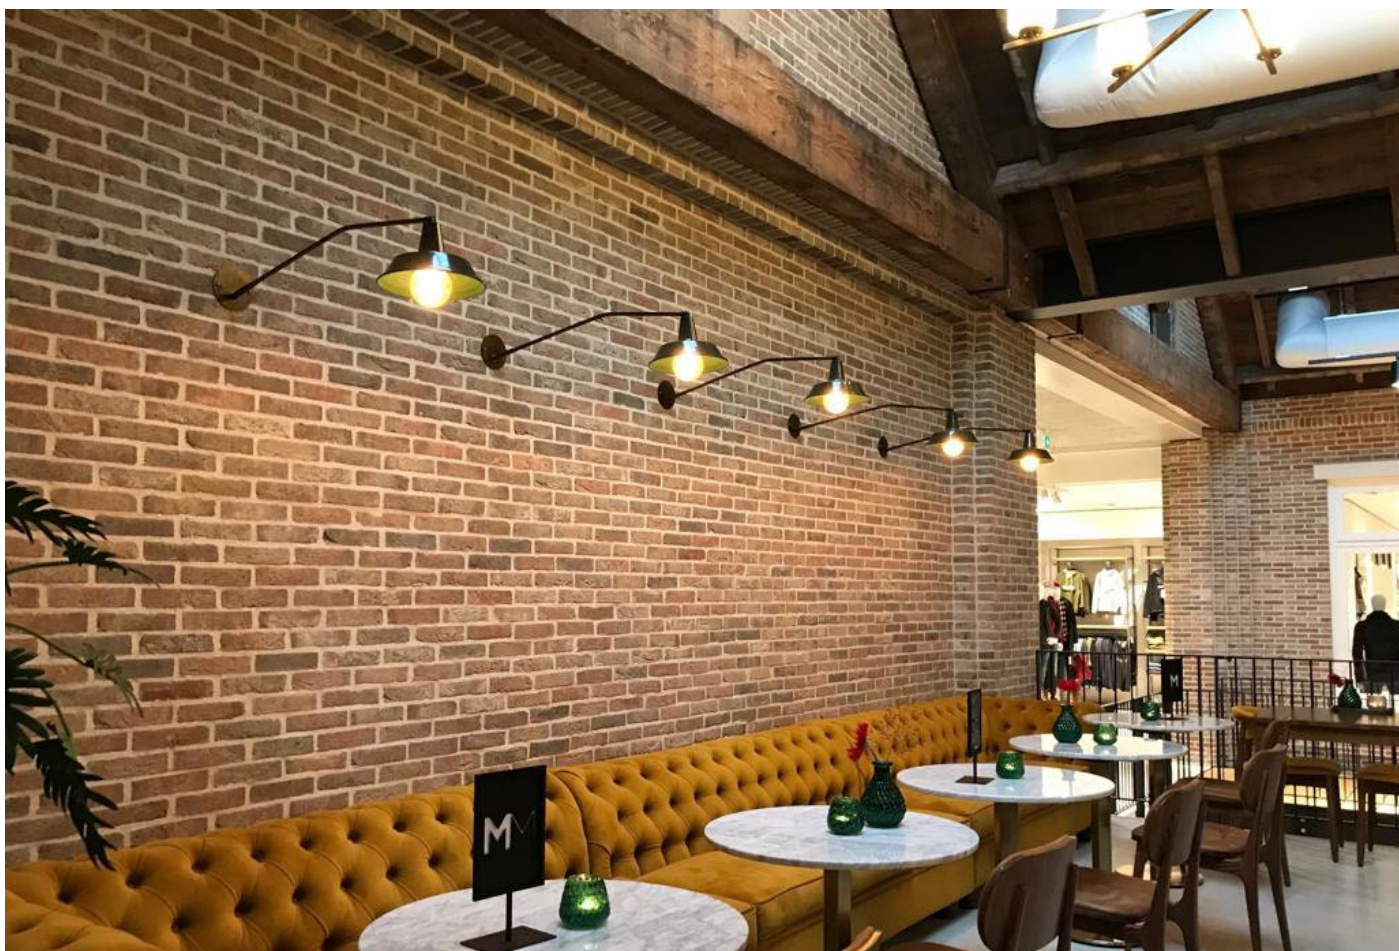

glasses were carefully selected for a stylish appearance. In addition, various galvanized treatments have been applied to metal to obtain authentic color effects. The result is refined and atmospheric lighting that enhances the ambiance of Mijn Modewereld | Van de Belt Modewereld.

TOWN HALL 'GEMEENTE PEEL
EN MAAS'
PANNINGEN

PROJECT

TOWN HALL 'GEMEENTE PEEL EN MAAS'

Masterlight took care of the entire process from design to installation of the lighting for the Town Hall in Panningen, the Netherlands. With careful project management, Masterlight has addressed all aspects of customization. The showpieces are Esmee rings, varying in size from 3 to 7.19 meters. These impressive

ring profiles, equipped with LED lighting, form a contemporary and functional lighting solution. Masterlight has also supplied decorative fixtures in this project, resulting in unique and attractive lighting that fits perfectly with the interior of the town hall.

KANNE GROUP GMBH
HEEDE, GERMANY

PROJECT

KANNE GROUP GMBH

Masterlight supplies a wide range of lighting fixtures to multiple establishments of Kanne Group GmbH. Together with the in-house architects from Kanne Group, Masterlight has developed multiple customized lighting solutions, varying from lighting fixtures made to concept and also lighted mirror frames. One

of multiple eye-catchers is a specially developed welded metal frame with "Flute" LED pendants above the reception desk of the Fasson Hotel which perfectly aligns with the architectural lines of wall panel in the reception area.

KORTE EINRICHTUNGEN GMBH
KÜR TEN, GERMANY

PROJECT

KANNE GROUP GMBH

In collaboration with Korte Einrichtungen GmbH, Masterlight has installed unique lighting solutions at various locations. The first photo shows shades with a special finish and built-in LED lighting, where we offer the option to use different modules for various purposes. These modules combine functional light with a decorative appearance, al-

lowing them to be tailor-made to the specific needs of the space. In the bakery, for example, Masterlight used the Bread LED module, specially designed to optimally illuminate bakery products. Masterlight's versatile approach with various materials results in high-quality lighting that perfectly matches the vision of Korte Einrichtungen GmbH.

MENNEN KEUKENS
+ INTERIEURS BV
LIESSEL

PROJECT

MENNEN KEUKENS INTERIEURS

In collaboration with Mennen Keukens + Interieurs, we have supplied high-quality lighting solutions for private customers. For these projects, in which Mennen Keukens + Interieurs designs, produces and installs beautiful kitchen and interior solutions, Masterlight contributes by providing matching lighting solutions with functional and esthetical characteristics. The lighting fixtures supplied to Mennen Keukens + In-

terieurs vary from architectural spot lights to trendy decorative pendants like e.g. the "Lava" and "Run" series, which provide a contemporary and stylish look. Furthermore, Masterlight has delivered beautiful lighting fixtures together with a Casambi domotica solution in the new showroom apartment of Mennen Keukens + Interieurs in Liessel, the Netherlands, which provides a high level of comfort to the user.

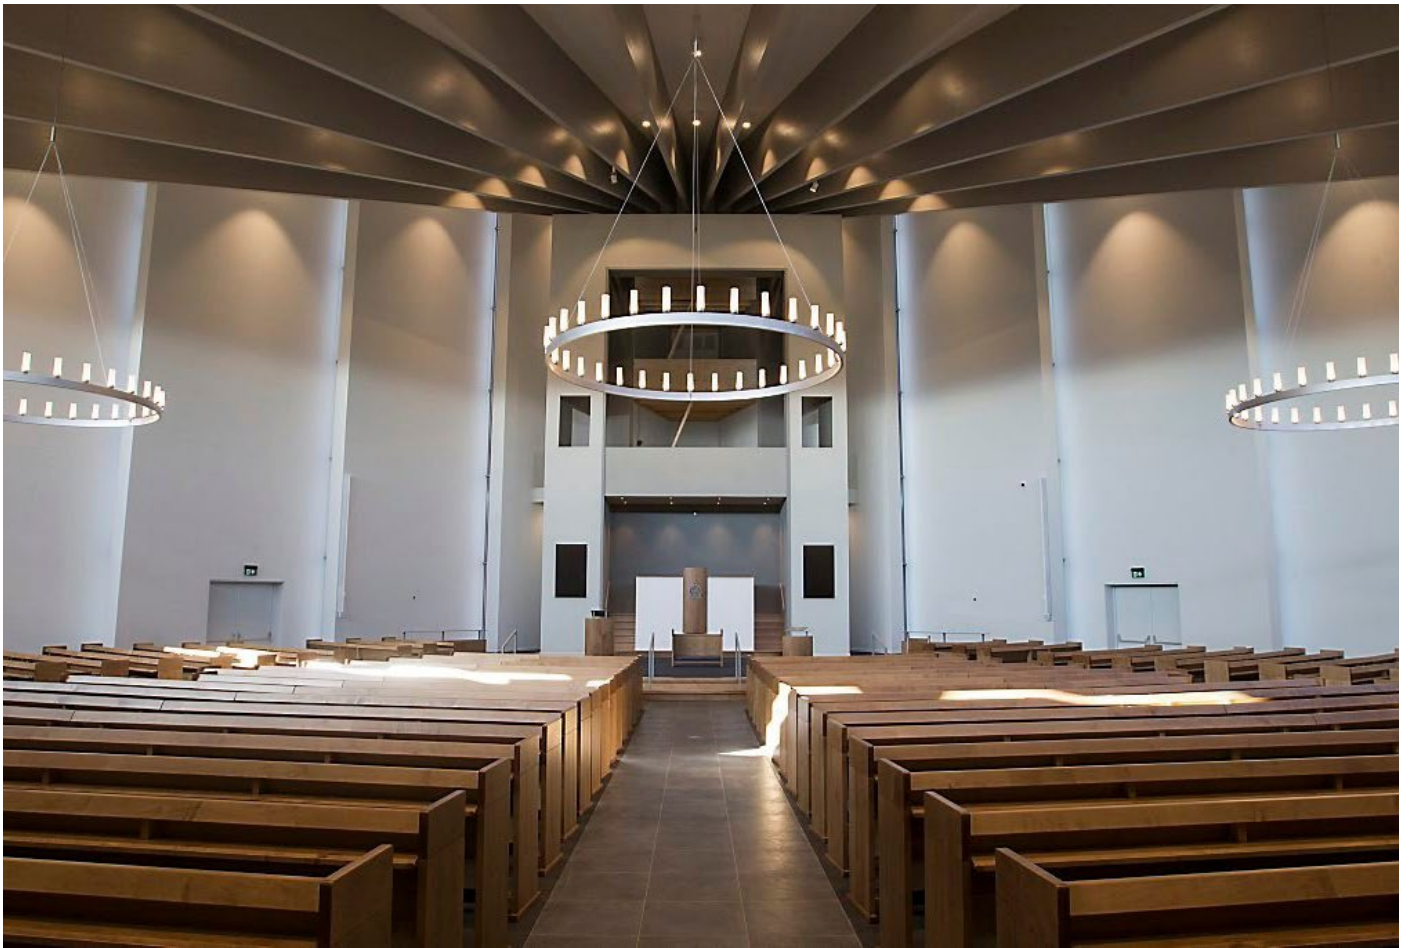

CHURCH NIEUW-BEIJERLAND
NIEUW-BEIJERLAND

PROJECT

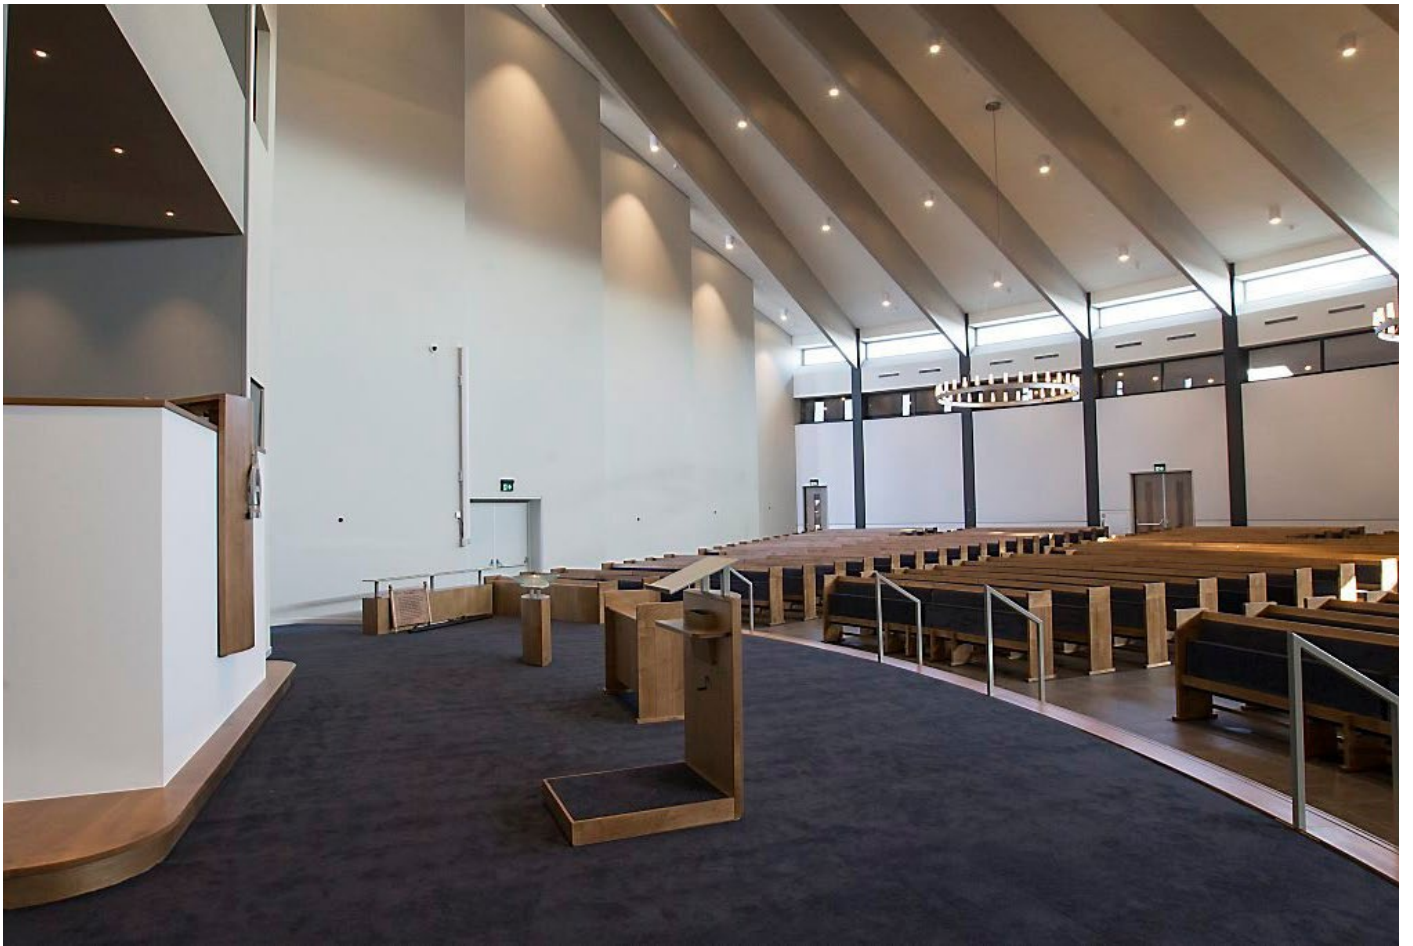

CHURCH NIEUW-BEIJERLAND

In collaboration with Maas & Hagoort Lampen B.V. Masterlight has designed and manufactured impressive lighting fixtures for the Nieuw-Beijerland Church. These large chandeliers, with a diameter of 2.5 meters, include 21 fixed LEDs each and are equipped with Pyrex frosted glass cylinders. These ma-

jestic chandeliers perfectly match the architectural design of the room and form a beautiful focal point in the church, creating an atmospheric and illuminated ambiance.

COUNCIL CHAMBER CITY HALL

HAARLEM

PROJECT

CITY HALL HAARLEM

In close collaboration with Maas & Hagoort Lampen B.V. we supplied lighting for the council chamber of Haarlem City Hall. The impressive nickel ring fixtures, with a diameter of 1.5 meters, are equipped with powerful up-down lighting of 400W. These fixtures are custom-made and adapted to the monumental build-

ing by means of a phase-cut control signal. The result is a refined lighting solution that is not only functional, but also contributes to the grandeur and appearance of the council chamber in Haarlem City Hall.

CONCEPT LIGHTING FOR RETAIL PROJECTS

BRANDSTORES

PROJECT

RETAIL LIGHTING

Masterlight supplies multiple specially designed lighting fixtures to multiple brands in different fields of business with establishments worldwide. Together with the concept interior designers of these companies, Masterlight develops and manufactures custom made fixtures to match the clients' interior concepts and brand appearance. Furthermo-

re, Masterlight closely collaborates with the project managers to ensure a timely delivery to each of the clients' stores. Beside concept lighting collections, Masterlight has also manufactured and supplied custom made solutions for multiple flagship stores.

LINEAR PROFILES AND FREE
FORMS EQUIPPED WITH HIGH
QUALITY LED

Masterlight offers a wide range of linear and freeform profiles. These custom fixtures are suitable for application in many different settings like e.g. Retail, sport and leisure, schools, offices, health care centers and many more. There are almost no limits in terms of size and lengths and also many different color finishes can be selected. The linear pro-

files are quipped with powerful high quality LED and driver components with a great life span and low energy consumption. The client can also choose from different kind of covers each having special characteristics, for example covers with a very low glare rating (UGR), to perfectly fit the application.

HOSPITA

PRIVATE RES

LED MODULES

Versatile LED modules for ideal illumination, tailored to diverse needs, ensuring objects are lit perfectly with functional precision in different colors options and CRI.

GENERAL INFORMATION

Masterlight products are designed and manufactured in compliance with the applicable normative documents. Dimensions in this catalogue are indicated in centimetres. In general, the lighting fixtures are prepared for a rated input voltage of 230VAC, 50/60Hz. Light sources are not included, unless indicated otherwise. For retro fit fixtures, a recommended light source is mentioned. In case of build-in led, characteristics of the light source are indicated in the specifications of each fixture. Effect finishes could show small differences in effect due to the handmade finishing process. Dimensions of the products could be subject to tolerances of +/- 1 cm. As glass is produced by traditional craft techniques, its thickness, color and finishes are subject to variations, a feature that makes each piece unique. Masterlight reserves the right to make any technical or formal alterations to its products without giving prior notice, especially for led light sources.

For the duration of the warranty for all lighting fixtures we apply the legal warranty period, starting from the date of purchase, unless indicated otherwise. At fixtures with a led light source built-in, the warranty period on the led and led driver stands for a period of 5 years. The general terms and conditions are made available online, to review please visit masterlight.com or send a request to info@masterlight.com.
